Part Description

Micro-USB port
for charging
battery

2 types of lights:

Press  for the dome light

Press  again for the main light

Press & hold to
dim light or to
increase brightness

Dimmer control for both lights
(Adjustable individually)

Backlit LCD
battery
indicator

Rechargeable
3.7v 2000mAh
battery

270° swivelable
light angle

Steel
Hanging Hook

Magnetic
Base

Anti-slip textured
body for better grip

Dust & water
resistant

Tough
construction

Box Content:

- » 1x RNO-107 work light
- » 1x micro-USB cable
- » User manual

Charging Instruction

1. The RNO-107 comes 80-90% charged and can be used straight away. However, we recommend that you fully charged the unit before using it for the first time.
2. Charge the unit before the battery runs flat. This will help extend the life of the rechargeable battery.
3. Open the rubber seal and insert the USB cable (included in the box) into the charging port as shown below. Turn on the power.

The LCD will indicate the battery charge status or progress.

4. Once the unit is fully charged, disconnect the unit from the power source. Remember to close the rubber seal.
5. Do not attempt to open the battery compartment unless you are replacing the battery.
6. Keep the battery away from extreme temperature or heat source and naked flame.

Replacing the battery

1. Un-tighten the screw at the base of the unit with a cross screwdriver. Slide open the battery cover.
2. Replace the old Li-ion battery with a new Type 18650 3.7v 2000mAh battery.

3. Slide the battery cover back on and re-tighten the screw.

WARNINGS

1. The unit is extremely bright and the lighting surface can be very hot after using for a duration. Hence, avoid looking directly into the lights or touch the main light panel when the light is being used.
2. Please keep the unit away from children.

Technical Specifications

Material	PC + TPR + Aluminum
Product Size	Folded: 150 x 30 x 35 mm Unfolded: 270 x 30 x 35 mm
Product Weight	162g (including battery)
Battery Type	3.7v, 2000mAh Li-ion 18650 battery
Charging Time	About 2 hours
Input Voltage & Current	5V, 1A
Protection Rating	IP62
Lighting Type	Dome light: 3W LED (140 Lumen) Main light: 5W COB LED (360 Lumen)
Working Time (at max. intensity)	Dome light: ~4 hours Main light: ~3 hours

Warranty information

Our company provides a 90 (ninety) day limited warranty guarantee. If you have any problem during this time, please contact us.

This warranty does not apply

- (a) to consumable parts, such as batteries or protective coatings that are designed to diminish over time unless failure has occurred due to a defect in materials or workmanship.
- (b) to cosmetic damage, including but not limited to scratches, dents and broken plastic on ports unless failure has occurred due to defect in materials or workmanship.
- (c) to damage caused by use with a third party component or product outside of package contents.
- (d) to damage caused by accident, abuse, misuse, fire, liquid contact, earthquake or other external cause.
- (e) to damage caused by operating the product outside the manufacturer's published guidelines.
- (f) to damage caused by service performed by anyone who is not a representative of the manufacturer.
- (g) to a product that has been modified to alter functionality or capability without the written permission of the manufacturer.
- (h) to defects caused by normal wear and tear or otherwise due to the normal ageing of the product.
- (i) if any serial number has been removed or defaced from the product.

Please visit www.alpskgizmo.com to register your product within 14 days of purchase to be eligible for the warranty.
