

Wireless Charger Desk Organizer Combo User Manual Ver. 1.0

Please read the instruction before using the product

Technical Specifications

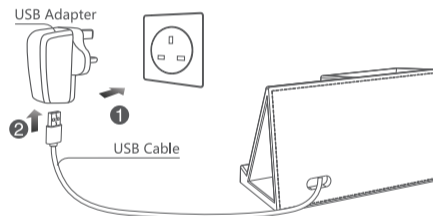

Model No: LE-300WCDO
Manufacturer P/N: HB01
Input voltage/current: 5V/2A or 9V/2A
Output power: 5W/7.5W/10W
Technology: Qi Standard
Charging frequency: 110 - 148KHz
Transmission distance: ≤ 5mm
Efficiency: ≥ 75%
Product dimensions (LxWxH): 175mm x 104mm x 112.5mm

In the Box

1. One wireless charger desk organizer
2. One USB cable
3. User manual

Installation

1. Connect the USB cable to the power adaptor.
2. Plug the power adaptor into the wall socket.
3. The LED indicator turns Blue to indicate that the charger is in standby mode.
4. Place the Qi compatible smartphone onto the charger. When the phone is placed correctly, the LED indicator will turn from Blue to Green. This indicates that charging is in progress.
5. When the phone is removed from the charger, the LED indicator will turn to Blue and enters into standby mode.

Important Note: The charger only supports fast charging when used with QC2.0/QC3.0 Standard power adapter. The adapter is not included and is to be bought separately.

LED Light Status Indicator

1. Blue LED light: Charger is in standby mode.
2. Green LED light: Charger is charging normally.
3. Blue LED light flashing: Error detected. There are 3 possible causes
 - » The smartphone is not properly placed on the charger.
Action: Place the smartphone squarely on the charger.
 - » The charger is in overheat protection mode (exceeds 60°C)
Action: Remove the smartphone and turn off the charger to allow it to cool down before using again.
 - » The charger detects a ferromagnetic/conductive metal object in close vicinity of the charging pad.
Action: Move any metallic object at least 20 cm away from the charging pad.

Warnings

1. For the best charging efficiency, remove the protective case of the smartphone during charging and use a 2A power adaptor.
2. Do not disassemble the charger.
3. Do not spill water on the charger or put the charger near a heat source. This may cause the charger to short-circuit.
4. Do not use the charger in a hot, humid or corrosive environment. This may damage the unit.
5. Keep any wearable medical device like pacemaker & hearing aid at least 20 cm away from the charger to avoid potential interference with the medical device.
6. Keep the charger away from children for safety reasons.

Warranty information

Our company provides a 90 (ninety) day limited warranty guarantee. If you have any problem during this time, please contact us. This warranty does not apply

- (a) to consumable parts, such as batteries or protective coatings that are designed to diminish over time unless failure has occurred due to a defect in materials or workmanship.
